Delivery Requirements for all cabins over 14x34

Site MUST be accessible with a Semi Tractor and Trailer. There must be 110' minimum directly in front of one END of where building is set for truck to pull away from building. If this requirement cannot be met, customer must provide a crane service to set the building. Can be shipped to the entire Northwest USA. Site prep is Homeowner's responsibility. **Compacted Gravel base or Cement slab required.**
